Team 14 Homework 1 Report

Demo:

<https://youtu.be/ysYwRUYZpfM>

Positive:

Assignment 1 went smoothly. The group collaborated well and was understanding of everyone's skills. Throughout coding the website, the group helped each other learn about HTML, specifically the tables and resizing pictures on the webpage.

Negative:

One thing that may have been done better was the styling of the page by using CSS more efficiently with fleshing out the look of the pages. Since none of us have extensive experience with HTML/CSS, we had to overcome a few learning curves to get everything working properly.

Contribution:

Cristian Quiterio:

- Linked pages
- Styled the pages

Jaytonn Hunter:

- Proposed Site Idea
- Created the Table

Caleb Vandergriff:

- Inserted the Photo
- Filled in info
